

I am the Local Authority Governor for Oxspring Primary School taking up the role in 2018 and live locally in Stocksbridge. I hold responsibility as the Safeguarding Link Governor as well as taking an interest in Staff and Pupil Well-being.

I have a passion for education in all settings and in all sectors, from primary school education through to mature student in either further or higher education settings. I have worked my entire working life in education, having a 23 year career working at Sheffield Hallam University, primarily focussed on health and social care education. My particular area of specialist knowledge is around Professional and Statutory Body compliance as well as safeguarding of the public, including children.

Ensuring a positive student and pupil experience is a primary focus and passion of mine in my professional life and undertaking my role as Governor as provided me with the opportunity to expand my passion outside of my day-to-day role at the University.

I will use my knowledge and experience to support the staff and pupils of Oxspring Primary School in my role as Governor and I am fully committed to the future success of the school.
