

Rhys was appointed to the Governing Body as a co-opted in April 2018. He lives in Skelmanthorpe, and having two small children has really emphasised the importance of education to him.

Rhys has a degree in Business Computing. He is the Group Business Intelligence Manager at a multinational food company and is responsible for the design and implementation of the Group Business Intelligence Strategy throughout the company. He has expertise in project and strategic management leading a team of over 30 people in a multibillion pound company, leading on internal IT development and data projects.

Rhys was until recently the treasurer at an amateur rugby league FC for children and adults, where he had volunteered for a number of years.

He joined the Governing Body in order to utilise his skills from his day to day work as well as to have some influence over and make a difference to children's' education.
