

# CLASS 4 HOMEWORK GRID – SUMMER 1

Below is Class 4's homework grid for the first half of the summer term. Home learning can be recorded in a variety of different ways such as photographs, videos, posters, drawings or models to name but a few. Your learning can be sent to me via email ([s.walker@oxspringprimary.co.uk](mailto:s.walker@oxspringprimary.co.uk)) or uploaded to SeeSaw, so please feel free to be as creative as you like and adapt the tasks to suit your ideas. Please choose some of the tasks below.

In addition to our home learning grid, the children have access to MyMaths, TTRockstars, Spelling Shed and Nessy. Please use these online resources as much as you can. Do please get in touch if your child needs a reminder about passwords to access the online resources.

Finally, please encourage your child to read as much as possible. Fluency in reading remains an important skill and reading will help fuel imagination and other areas of our curriculum.

|  |  |   |
|--|--|---|
| Take notice of the time: times things happen, how long things take and timetables.                           | Plant a seed at home and care for it. Upload pictures of its growth to SeeSaw.                               | Create an alphabet of simple pictures and then produce a sentence using them.                         |
| In literacy we will be learning about narrative writing. Write a story about anything you like - you decide! | Create a character profile about a member of your family! Include description of appearance and personality. | In maths we will be learning about decimals. Draw a fraction wall with tenths and add decimals to it. |
| Write and send me an email about the different methods of communication you know.                            | Using Martin Harvey Mark Making methods, make and fill a template in colours of your choice.                 | Based on one of our subjects, make a learning poster showing someone its key parts.                   |
